

CDI creates tailor-fit furniture solutions for school environments to help kids thrive. They are committed to helping administrators and teachers build warm, welcoming, and modern learning spaces that give students the freedom and flexibility they need to reach their full potential. They understand that behaviours are influenced by surroundings, which is why they create tailor-fit and fully customized student-centred spaces that enable effective learning and support teachers to do what they do best.

CDI Spaces gives back by helping to outfit an entire classroom when funding is requested through the Variety Schools grant program.

Variety BC works with a number of trusted vendors to deliver quality equipment and friendly service to your school with efficiency.

When you choose one of our preferred vendors for your inclusive upgrade, you can be assured that your project is in the hands of experts!

Sensory is their specialty. Therapy Freedom Happiness (TFH Canada) provides products that enable the "Power of Play" through functional intervention, learning opportunities, and play for everyone! TFH believes that every person has the right to meaningful inclusion, providing sensory products that develop or reinforce skills, knowledge and behaviours (such as sensory toys, therapeutic products, and specialized multi sensory rooms for snoezelen-therapy).

TFH Special Needs Toys has pledged to give back 10% of Variety Schools orders to help even more kids in BC reach their fullest potential and thrive.

Spark Adaptive is on a mission. They want everyone to feel that spark of pure joy that comes with the freedom of getting where you want to go and being supported to fully participate with your peers. Whether that is on a bike path, a forest trail, a snowy route or to the ocean's edge.

Their unique adaptive equipment will help schools support the inclusion of ALL students in outdoor play, field trips and bike programs. Let Spark Adaptive help you remove barriers to inclusion while also ensuring the right to education is realized for all students in your school community.

Your purchase at Spark Adaptive transforms even more lives with 6% of the total purchase being donated back to Variety BC to help more kids with adaptive equipment in your community.

Sensory paths are the next big thing in schools across Canada, providing children with a fun outlet to get moving and regulate behaviours, reinforce literacy, feel a sense of accomplishment, and reduce anxiety and stress. Sensory Paths Canada's designs are big, bold, and full of colour! Choose a popular theme OR build your own custom path with your school colours and mascot! Graphics are printed on quality 3M materials and come with installation and maintenance instructions.

Your purchase at Sensory Paths Canada transforms even more lives with 6% of the total purchase being donated back to Variety BC to help more kids with specialized therapies in your community.
